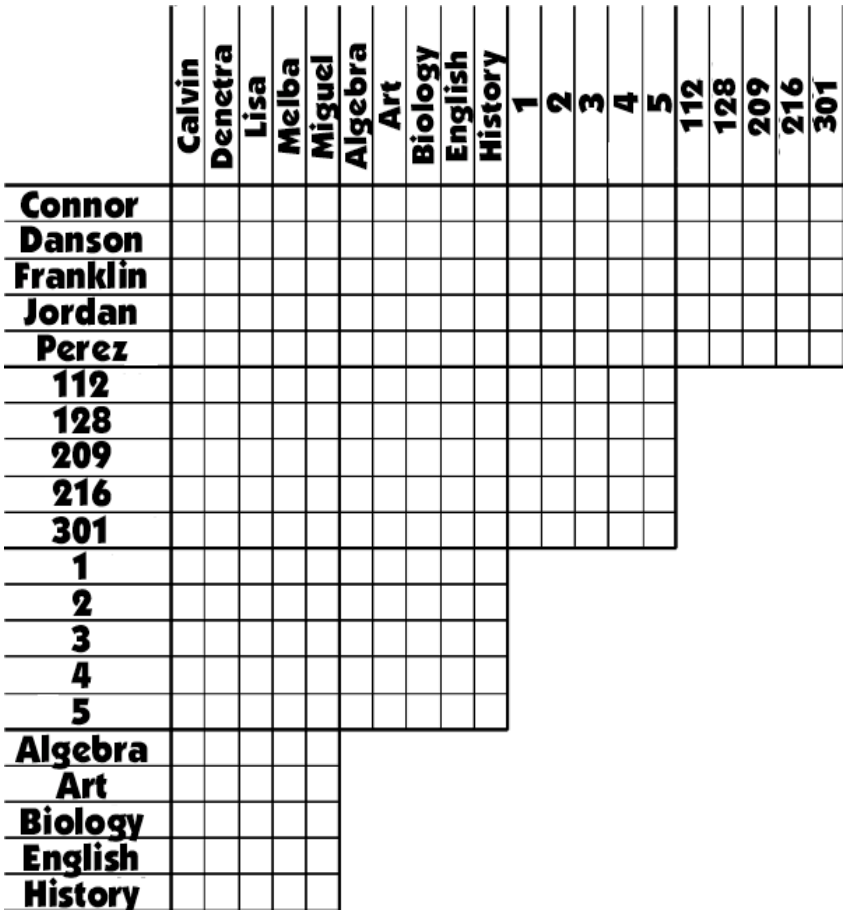
School Daze

by Kristen Kohli

Difficulty Level: ❸

Rochelle is starting at a new school and has lost her schedule. Help her figure out her teachers' first and last names, the subject they teach, room number, and the period she is supposed to be there. Classes on the first floor are numbered in the 100's, classes on the second floor are numbered in the 200's, and classes on the third floor are numbered in the 300's.


1. Rochelle is sure she had Algebra right after Mrs. Franklin's class, because she remembers complaining about having to climb up two flights of stairs so close to lunch time.
2. Rochelle overheard Ms. Perez call Denetra by her fist name while they were standing at the doors of their classrooms talking during passing period.
3. Rochelle remembers having Ms. Danson's class right after English and right before Melba's class, which isn't Art.
4. The last two periods of Rochelle's day are both taught by men.
5. Rochelle has Calvin right before Biology and right after the class in 128.
6. Melba has Rochelle later than Perez, but earlier than the man in 301.
7. Lisa and Connor have odd room numbers.
